

In this intensive 3-day course, you will learn what microblading is, the anatomy of the skin, color theory regarding the Fitzpatrick scale, how to correctly shape an eyebrow for the most natural and aesthetically pleasing result, effectively applying the 3-point stretch in the skin, needed supplies, and business growth. You will also experience a live demonstration of the technique on a model done by the instructor Agatha in addition to an in-depth video demonstration. You will also work on your own model under close supervision of the instructor Agatha. This small classroom setting provides personalized education and one on one time. This course will prepare you to offer permanent makeup successfully and confidently in your new career!

Previously Enrolled	Currently Enrolled
6	1

To be a PMU artist, a student's success will depend on the effort and due diligence put into their future business endeavors. We provide the tools, but it will be your passion to move forward in your career. PMU might not be for everyone as this is a form of art. Additional practice post certification is necessary to become successful in this industry.
